Valdospan GmbH is an Austrian-based company with core competences in the field of oncology among others. Our company specializes in the research and development of innovative therapeutic products for the treatment of malignant tumors. Our aim is to develop therapeutics with the goal of establishing ourselves as a fully integrated Austrian biotech company.

For our Viral Oncology Unit – R & D at 3430 Tulln an der Donau, we are looking for a skilled and motivated

Research Technician (30 – 40 h/week)

Responsibilities include:

- Laboratory work according to SOPs such as in vitro assays, cell culture, western blots and flow cytometry
- Establishment of new methods and protocols
- Highly accurate records and results
- Summarization of experimental data in both written and oral form
- Lab maintenance
- Lab-related organizational tasks (e.g. ordering, documentation, inventory control)

Requirements:

- HTL, BSc, MSc or equivalent in a relevant field
- Experience in cell culture and basic laboratory methods is advantageous
- An independent, clean and precise working style
- Excellent documentation skills
- Well written and spoken English (working language)
- Reliable and good team player

The minimum monthly gross salary for 40 h per week is €1975,64 according to the "Kollektivvertrag chemisches Gewerbe, Verwendungsgruppe III". Overpayment is possible depending on individual qualifications and work experience.

Our supportive and motivated team is looking forward to your application (CV and cover letter) via hr@valdospan.com referring to VS-JO-2021-S04.
