Valdospan GmbH is an Austrian-based company with core competences in the field of oncology among others. Our company specializes in the research and development of innovative therapeutic products for the treatment of malignant tumors. Our aim is to develop therapeutics with the goal of establishing ourselves as a fully integrated Austrian biotech company.

For our company located in Tulln an der Donau, we are looking for a skilled and motivated

Medicinal / Pharmaceutical Chemist (40 h)

The primary responsibilities include CMC management of current drug candidates as well as the design, production and purification of small molecules for the development of new therapeutic applications. Additional tasks include, but not necessarily limited to, liaising with international vendors and management of our partners distributed around the world as well as supervision of the setup of the chemistry lab. There is opportunity for career advancement in our growing company, of which supervision of several lab members is expected after the introductory phase. A successful candidate must show an excellent command of English and be capable of negotiating with worldwide partners.

Requirements:

- PhD or MSc in a relevant field
- Experience with CMC is desirable
- Experience with synthesis of heterocyclic compounds, peptide chemistry and biomolecule conjugation is advantageous
- Previous work in a cGxP environment or in silico pharmacology is a plus
- Proficiency in English is expected
- Independent and responsible work ethic

Starting date: earliest September 2021

The minimum monthly gross salary for 40 h per week is €3.050,80 according to the "Kollektivvertrag chemisches Gewerbe, Verwendungsgruppe V".

The actual salary will vary depending on education, qualification as well as work experience of which will be negotiated upon receiving the job offer.

Our supportive and motivated team is looking forward to your application (CV and cover letter) via hr@valdospan.com referring to VS-JO-2021-C01.
